Project Definition

Based on the urgent humanitarian needs of some families affected by the war and the increasing number of needy, poor and displaced families in the Capital Secretariat, Sand Relief and Development has implemented the project of distributing Food Baskets to affected and displaced families in the targeted provinces for 625 families. Targeted during January-June 2019

The project was divided into stages and components consisting of the distribution of ready meals to 150 and Food Baskets to 625 to the target families. Distribution of cash to a number of (30) families

Total: 775 displaced and needy families

The complex living and economic conditions in Yemen and the continuous deterioration in various aspects and areas that caused the country to enter the overall war for more than four years things have become more complicated, and the tragic situation, which has affected all but a few segments of society.

Since we are currently in the holy month of Ramadan, the humanitarian project in the field of Food security was to provide relief to the number of (2000) affected, needy and displaced families in the targeted provinces, the intervention was a phrase of ready and

fast Food – and Food Baskets containing a variety of Food items that you only need A secret in the month of Ramadan.

The meals were distributed after a survey of the families and the location of their dwellings, which were distributed directly to the houses. This component also included a group breakfast for the disabled for 100 persons with disabilities at the Centre for the Disabled in the Shamlan area.

Food Baskets were also distributed through cards containing items of Baskets through collective distribution and in accordance with high standards of implementation and supervision that showed the effectiveness of achieving the goal and the efficiency of implementation.

importance of project implementation:

Many families suffer as a result of the suspension of family income sources as a result of more than two years of salary cuts, high prices and displacement.

Therefore, these affected families had to be targeted, relieved and aided. After monitoring the basic humanitarian aspects and meeting the need in the short term and avoiding harm and reducing the need for some of the affected and displaced families within the framework of the secretariat of the capital to extend the hand of need to others.

Overall objective:

Contributing to alleviating the human suffering of affected and displaced families, up to 1,000 affected and needed families in the provinces (Amana Capital - Sana'a - Hodeidah - Aden - Hajjah) as the first phase of the Food program for 2019, which was from January to June 2019

Implementation and evaluation methodology:

Implemented in accordance with our methodology and standards passed through several stages, determining the need ratio, identifying beneficiaries as affected and needy families by the team and staff of the organization.

specific mechanism was identified to select and survey families in need within the target areas and collect Data of the target group through prepared form containing some basic data of 1,000 needy and affected families.

300 ready meals were distributed daily for 10 days, covering 600 families. Thirty families were distributed cash.

<p>Collecting targeted family data</p>	<p>The organization carried out fieldworks through its staff, cases surveyed through interviews and visits, with the help of Officials in the targeted areas to obtain the locations of the cases that should be targeted. data were taken through the survey form. <i>(Attached form)</i></p>

Success stories:

Many beneficiaries praised Sanid organization for relief and development in the humanitarian work .

number of social figures and local authorities also thanked the organization, the funders and supporters of good will and help the poor families, especially those displaced families.

Difficulties and ways to deal with them during the implementation of the project:

Difficulties	ways to deal with them	The Degree of Priority	Type
Lack of support for implementation of the program plan	Find additional funders to complete the implementation of the program plan	Medium	
Crowding of beneficiaries	Distribution of the team to more than one team with the distribution of the work of organization and arrangement with the help of a local team from the region	Medium	
The distribution of Baskets was delayed due to the need for documentation after the gathering of all the beneficiaries, there was a	Intensified follow-up and communication to beneficiaries of the need to urgently attend	Medium	

delay in attendance which led to a delay in distribution			
Poor people flocked to the distribution centre very much, reflecting the extent of needs and poverty.	They were treated gently and explained to them and convinced that the exchange is to specific entities that we cannot include their names at the moment.	Medium	
Time constraints for coordination, follow-up and receipt of materials as well as the processing of materials in package sassand and distribution to beneficiaries	A physical and mental double effort, increased working hours and motivated the staff	Medium	

Pros and facilities during the implementation of distribution:

- Welcome and thirst for help from beneficiaries whether takeaways or Food Baskets
- Continuous communication and giving performances and speed yaws and diligent follow-up by the executive director of the organization with the project manager and the team.
- Benefit from the expertise of team members where they have sufficient experience to implement and how to deal with any problems that may occur.
- The inter(ACT)ion of the organization's leadership with the project team.
- The presence of the team and their commitment to the deadlines for the distribution of ready meals and work on three periods per day during the implementation period.
- All (ACT)ivities have been completed by 100%:

Summary of project completion within the scope of the Report:

The completion of all (ACT)ivities increased by: % 100

Recommendations

- Give the organization sufficient time to implement the project or the exchange process for any early distribution so that it can better fit with all stakeholders and prepare the necessary arrangements for implementation.
- Adopt additional Food Baskets to address any problems that may occur.
- Targeting government sector employees from ministries such as education as they are the most affected sector.
- The recommendation is to go to look for additional funders to cover the rest of the plan for 1,225 Food Baskets during the second phase.
